

First Call for Papers

Chaos Applications in Telecommunications and Sensors

CATS International Workshop

**2-3 June 2009
Chania, Crete, GREECE**

CATS International Workshop seeks original contributions on the applications of chaotic dynamics in telecommunications and sensors.

Both experimental and theoretical work will be accepted for oral presentation. The workshop will be scheduled to effect a strong interaction among participants.

Abstracts in the form of a single A4 page summary should be submitted electronically to <http://cats.di.uoa.gr> (Paper template available for download).

Deadline for paper submission : Monday, 30 March 2009

Notification of paper acceptance : Monday, 06 April 2009

Organized within the **CHAOS2009 2nd Chaotic Modelling and Simulation International Conference**
